projects to either deviate from the suggested architectural approach or to request scope extensions. Additionally, external factors - such as market factors, changes in business strategy, and new technology opportunities - may open up opportunities to extend and refine the architecture.

Access PDF An Architectural Approach To **Deliverables**

The term 'architectural runway' started as an analogy while observing PI-level burn-down charts. Often, when there isn't enough architectural runway when teams start a PI, any features dependent on the new architecture are a high risk. ARTs can't always 'land those PIs' (bring the burn-down to zero at the end of the PI).
