An architectural drawing or architect's

File Type PDF Autocad Architecture 2011 Manual

drawing is a technical drawing of a building (or building project) that falls within the definition of architecture. Architectural drawings are used by architects and others for a number of purposes: to develop a design idea into a coherent proposal, to communicate ideas and concepts, to convince clients of the merits of a design, to assist a building ...

Architectural drawing - Wikipedia

A new Force Layer Properties parameter determines whether the program will automatically modify the properties of existing layers in a drawing to match the properties defined in the program.; A new System Variables parameter incorporates the ability to configure any number of system variables when a command is invoked, with the system variables reset to their original values upon completing or ...
