Barnett Engines - pompahydrauliczna.eu

In 1963 Barnett converted a Volkswagen engine of 34 hp and installed it in the J-1. and mastered the fine art of piloting his gyroplane without the aid of a tow-rope. That engine served its purpose in the J-1 as a trainer, the J-2, and the following year Barnett graduated to the bigger J-3M gyroplane design, which could take a Continental aircraft engine of either 65 or 85 hp.

Barnette's Remanufactured Engines | Better Business Bureau ...

The Frenchman, Lebon, it is true, described an engine using compression, in the year 1801, but his cycle is not in any way similar to that proposed by Barnett, or used in modern gas engines". The patent also describes a method for igniting the gas/air mixture within the cylinder using a flame transferred into the cylinder via an 'igniting cock'.
