This BMW / Mini footwell module (FRM3) is a commonly failing part that will cause a whole host of problems on the vehicle. The footwell module receives signals from an assortment of sensors on the vehicle and is responsible for controlling many 'body' aspects on the vehicle such as electric/power windows, AC/heating fans, exterior and interior lights and exterior mirrors.

MINI Cooper S The Mini is a small economy car made by the British Motor Corporation (BMC) and its successors from 1959 until 2000. The original is considered a British icon of the 1960s. The production version of the Mini was demonstrated to the press in April 1959, and by August several thousand cars had been produced ready for the first sales.
