Turns out that the WiFi button on the side of the modem had been turned off, so even though the network was active it wasn't broadcasting. Hold down the button for 3-4 seconds and suddenly everything worked great. I wish they would have mentioned that in the instruction manual and I could have saved myself 10 minutes on the phone with Comcast.

The modern banjo derives from instruments that are thought to have been in use in the Caribbean since the 17th century by enslaved people taken from West Africa. Written references to the banjo in North America appear in the 18th century, and the instrument became increasingly available commercially from around the second quarter of the 19th century.
