Desire And Motivation In Indian

Definition. Motivation is commonly defined as what explains why people or animals initiate, continue or terminate a certain behavior at a particular time. Motivational states come in various degrees of strength. The higher the degree, the more likely it is that the state has an influence on behavior. This is often linked to forces acting from within the agent that result in goal-directed ...

Motivation - Wikipedia

Motivation is the desire to act in service of a goal. It's the crucial element in setting and attaining our objectives. Motivation is one of the driving forces behind human behavior.

Motivation | Psychology Today

A desire for an ice cream cone might actually be an indirect expression of a desire for love. If it is, then this desire for the ice cream cone becomes extremely important motivation. If however the ice cream is simply something to cool the mouth with, or a casual appetitive reaction, then the desire is relatively unimportant.
