The first thing to remember is that you will not find your way by scanning the distant horizon of the future. You need to start walking. Set out along your way, step by step, and keep your eyes peeled for the opportunities that appear. Try to identify your passions, and try to spend more of your time on things that

We all must find our own way through. This means that, while we may share the same research map, your path will be different from mine. Joseph Campbell wrote, "If you can see your path laid out in front of you step by step, you know it's not your path. Your own path you make with every step you take. That's why it's your path."

## **Finding our way to true belonging - TED**

We can't think our way into our life's passion and purpose, we have to do our way in. This means taking steps towards what you want, and removing those things in your life that you don't want. I left my successful corporate job on a mission to find my happy, and it came by taking one step at a time and exploring many different passions.

Finding your own path in life is a real challenge that we all have to face as we come of age and begin to look at how we might make our mark on the world. If only it were so easy that everyone was guaranteed success in their pursuits instead of the starker reality that most of us contend with in our daily lives.

## **How to Identify and Leverage Your Personal Strengths**

Finding your passion isn't always an easy road—at least for me, and many people I know, it wasn't. You're working in a hectic day job that takes up a lot of your time and energy, and while you know it's not what you love, you can't even manage cooking your own dinner most nights, let alone discovering your passions.

Can't find your Wi-Fi network's password and don't have access to your router's web interface — or just don't want to bother? Don't worry. You can reset your router and force it to use the default Wi-Fi passphrase printed on the router once again. Look for a small “reset” button on the router.

## **How to Find Your Wi-Fi Password**

If you want the current key in use on your PC, NirSoft's ProduKey is a good graphical tool for finding it. That's all there is to it. This way is quick, but this isn't likely a code you'll remember very easily. If you'd like a faster way of accessing your product key in the future, you can use the Windows Registry method instead.
