Another reason to switch from Windows to Linux is that Linux is portable and resilient. Windows will only work with the particular hardware configuration it was installed on. OTOH, once Linux is installed on a hard drive, that hard drive can be moved from PC to PC and the O/S will automatically adapt to the hardware.

## **8 Reasons to Switch from Windows to Linux - Make Tech Easier**

With the launch of Windows 11, Linux as a desktop choice will get more competition. While we do have some replacements for Windows 10 experience in the Linux world, there's nothing that targets Windows 11, yet. But this brings us to the obvious counter-response from the Linux community - a Linux distribution that takes a dab at Windows 11.
