Behavioural economics is a branch of economic research that adds elements of psychology to traditional models in an attempt to better understand decision-making by investors, consumers and other economic participants. Behavioural economics challenges the assumption that agents always make rational choices with the aim of maximising utility. The leading behavioural economist, Richard Thaler ...

Read Book Principle Of Economics 5th Edition Solution

Economics (/ ɛ k ə ' n ɒ m ɪ k s, i: k ə -/) is the social science that studies the production, distribution, and consumption of goods and services.. Economics focuses on the behaviour and interactions of economic agents and how economies work. Microeconomics analyzes basic elements in the economy, including individual agents and markets, their interactions, and the outcomes of interactions.

Economics - Wikipedia

Information economics or the economics of information is a branch of microeconomic theory that studies how information and information systems affect an economy and economic decisions. Information has special characteristics: It is easy to create but hard to trust. It is easy to spread but hard to control.
