The user name is the name of the user, the user's real life name, for example: Bob Smith. User name is sometimes used for username, but occasionally it makes a difference, so be clear and avoid the ambiguity. (Better still, use full name when you want them to enter Bob Smith.) User-name is a variant of username, but this is rarely used if ever.

orthography - "Username", "user name" or "user-name ...

It started out with the Commodore PET, Commodore VIC-20, the Atari 8-bit series, the Apple II plus, and some 6502-based computers one could build from kits, such as the Rockwell AIM 65, the KIM-1 by MOS Technology, and others from companies such as Ohio Scientific. Support for the kit computers and the Commodore PET were eventually dropped.
